# Trusted specialists since 1975

Envico Engineering Limited is a long established organisation which over the years has built up a high reputation for the Design, and Manufacture of quality specialised Glass Reinforced Polymer (GRP) Mouldings for use in many industrial applications - ideally suited for the Electricity, EV Charging, Gas, Water and Telecommunications Industries.

# Our services

Envico Engineering manufacture a wide range of GRP products including Transformer Housings, Roadside Cabinets, Doors, and Vents. For any projects that our standard ranges do not fit, Envico Engineering can offer the design, manufacture, and installation of bespoke housings to fit your requirements.
